

# CLEANING TOOLS

## CLEANING TROLLEYS

### DESCRIPTION

Cleaning trolley for contamination controlled areas, composed of a frame of AISI 304 stainless steel with Scotch Brite finishing, 360° swivel castors and plastic buckets with stainless steel handles.

Buckets with capacity of 15L, size 46 x 15 x 24,5 cm (l x w x h).

Thanks to the reduced size and swivel castors, the trolley is easily maneuverable, even in narrow areas.

The entire structure, buckets included, is autoclavable.

# CLEANING TOOLS
