Earth Friendly
Product

PHARMACLEAN® CLEANROOM MATS

DESCRIPTION

Pharmaclean® tear-off decontamination mats with antimicrobial additive for entry into contamination-controlled areas. The additive is contained in the adhesive part of the mat, consisting of a low-density polyethylene film, and remains on it for long time, ensuring a substantial reduction in cross-contamination. Numbered corners to prevent tearing multiple layers at once. Available in blue, white and grey color and in packs of 8 mats of 30 strips each, or 4 mats of 60 strips each.

STICKY MATS

Pharmaclean® tear-off mats are the first contamination control product containing renewable plant materials, offering an environmentally friendly alternative to support sustainability.

A real commitment

Pharmaclean® mats are made of EnviroTack, a renewable, GMO-free plant material that can reduce CO2 emissions. In fact, their production saves 135 tons in carbon emissions, the equivalent seized from 160 acres of forests in one year.

Communicating sustainability

The use of mats made of renewable materials provides additional support in communicating your commitment to environmental sustainability.

Recycle

Pharmaclean® mats can be recycled through standard plastic processes.

APPLICATIONS

- Pharmaceutical manufacturing
- Microelectronics
- Semiconductors
- Biotech
- Healthcare

Durable and effective

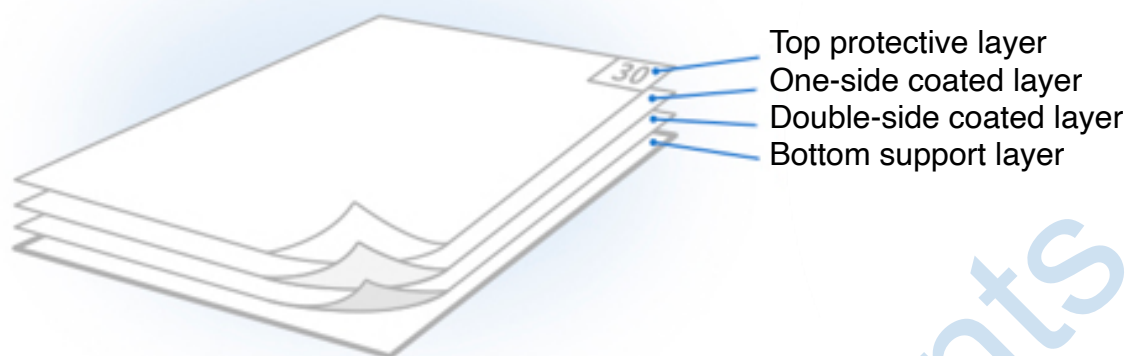

Adhesive-coated mats offer excellent contamination control performance and resistance to pedestrian and trolley passage.

Competitive price

Optimal performance combined with material sustainability does not affect the highly competitive cost.

STICKY MATS

TECHNICAL FEATURES

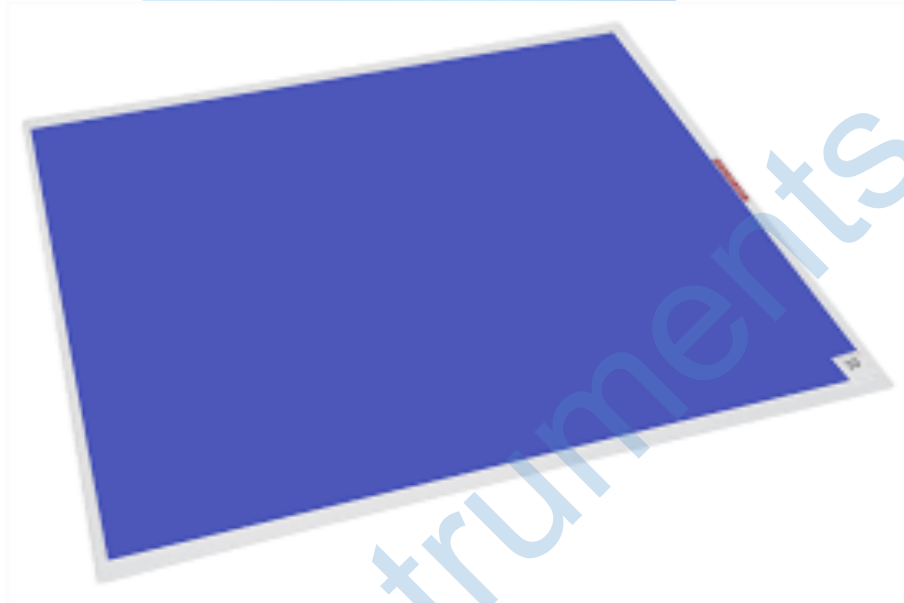

film material	low density polyethylene
film thickness	1.4 mil / 35 μ m
adhesive material	acrylic
adhesive thickness	0.3 mil / 8 μ m
peel adhesion "top"	190 g/25 mm \pm 40
heat resistance	70° C - 48 hours
efficacy percentage of S. aureus microorganism removal (MRSA)	85%
efficacy percentage of A. niger microorganism removal	97%

PH715	Pharmaclean® tear-off mat - colors: blu (PH10403), white (PH10404) and grey (PH10405) dimensions cm 91 x 114	4 mats per 60 layers each

STICKY MATS ACCESSORIES

PHARMACLEAN® CLEANROOM MAT FRAME

DESCRIPTION

Frame for Pharmaclean® sticky mats, constructed of a hard, rigid, polystyrene base material combined with a non-skid backing. Protect floors from adhesive residue and reduces the risk of slips and falls. Standard white color.

STICKY MATS

TECHNICAL FEATURES

material	Polystyrene
thickness	3,2 mm
Backing material	Non-Slip polymer coated polyester
